

What's Needed Now and Collaboration

Education

- Trade Vo-tech on all E-equipment
- Community college EV charging and EV repair training programs
- Opportunities for better connectivity between local governments and community colleges
- O&M training is needed
- Electric engineer union partnerships
- Politicians need education through GMA, etc. to better advocate
 - Carl Vincent Institute
- Targeted audience communication: seniors, multifamily residence, public schools

Resource needs

- EV 101 for community and business
- Ride and drives for buy-in

Ideas

- Start small
- Free charging is bad policy
- “Always be charging” workplace charging software protect battery
- Why don't we (local governments) buy used EVs? Shift vehicles risk-averse
- Economic development opportunities

Partnerships

- Private and (internal OPS or businesses)
- Fellowships/University partnerships: ways to build capacity without hiring someone
- Corporate partners
- Municipal Power Companies
- Faith community as a way to info share about EV programs
- Georgia Interfaith Power and Light (GIPL)
 - EV charging @ places of worship?
 - Green congregations?
- Work with local artist to make EV chargers look nice

Stakeholders Identified

- Internal: zoning, permitting, planning, IT
- External: Advisory boards, Community groups, Developers, Apartment Associations, Urban Land Institute

BIKE RACK

Community college EV charging & EV repair training programs → opp for better connectivity b/w ELGs & comm. colleges

PARTNERS
Private & (internal ops or businesses)
Corporate partners?
MPCs

GIPL -
EV charging @ places of worship?
green congregations?

Work w local artists to make EV chargers look nice!
