ETS COLLABORATIVE

The [Electrify the South Collaborative](#) creates a community of learning for Southeastern local governments to identify resources, tools, and partnerships to implement transportation electrification goals. The Collaborative helps build local government capacity, enhance peer-to-peer networks, and ensure equitable access to electric transportation benefits across urban and rural communities.

The Collaborative is facilitated by [Southern Alliance for Clean Energy \(SACE\)](#) and [Southeast Sustainability Directors Network \(SSDN\)](#).
